MI You

Create a proposal graphic that is 6.5 inches x 4 inches that describes the DevSecOps process.

ChatGPT

I've created a sleek, professional proposal graphic for you that describes the DevSecOps process, tailored to the specified dimensions.

BEFORE Build-a-Graphic

CULTIVATING TOP SALES

Each step is crucial in nurturing leads and cultivating successful sales relationships. By following this process, we can effectively guide prospects through their journey to becoming satisfied customers.

PLANT. Identify potential leads and make the first connection.

ROOT. Understand the needs and goals of the prospect.

NOURISH. Offer tailored solutions to address the prospect's needs.

GROW. Cultivate trust and credibility through effective communication and follow-up.

PROGRESS. Move the prospect through the sales funnel towards a commitment.

SPROUT. Showcase the benefits and value of your product or service.

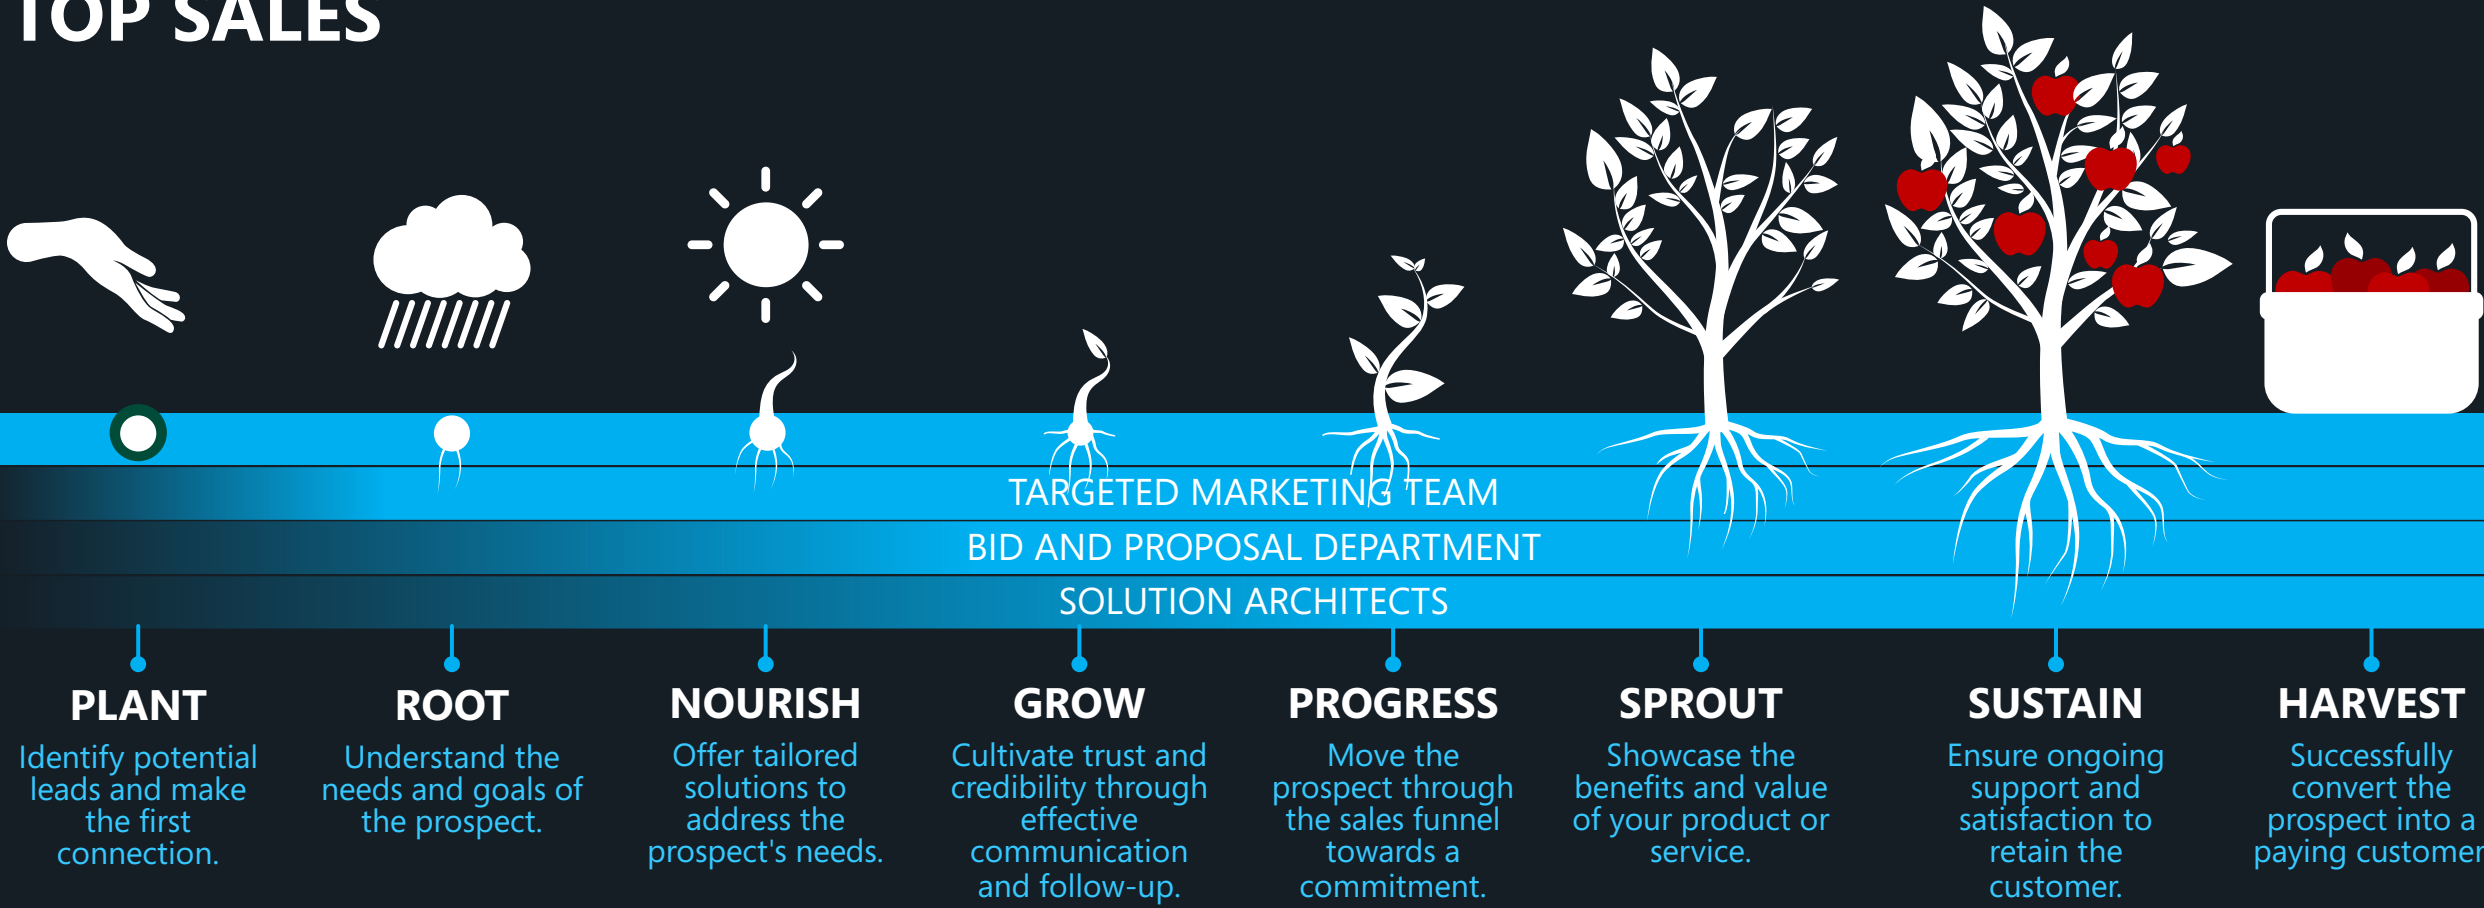

SUSTAIN. Ensure ongoing support and satisfaction to retain the customer.

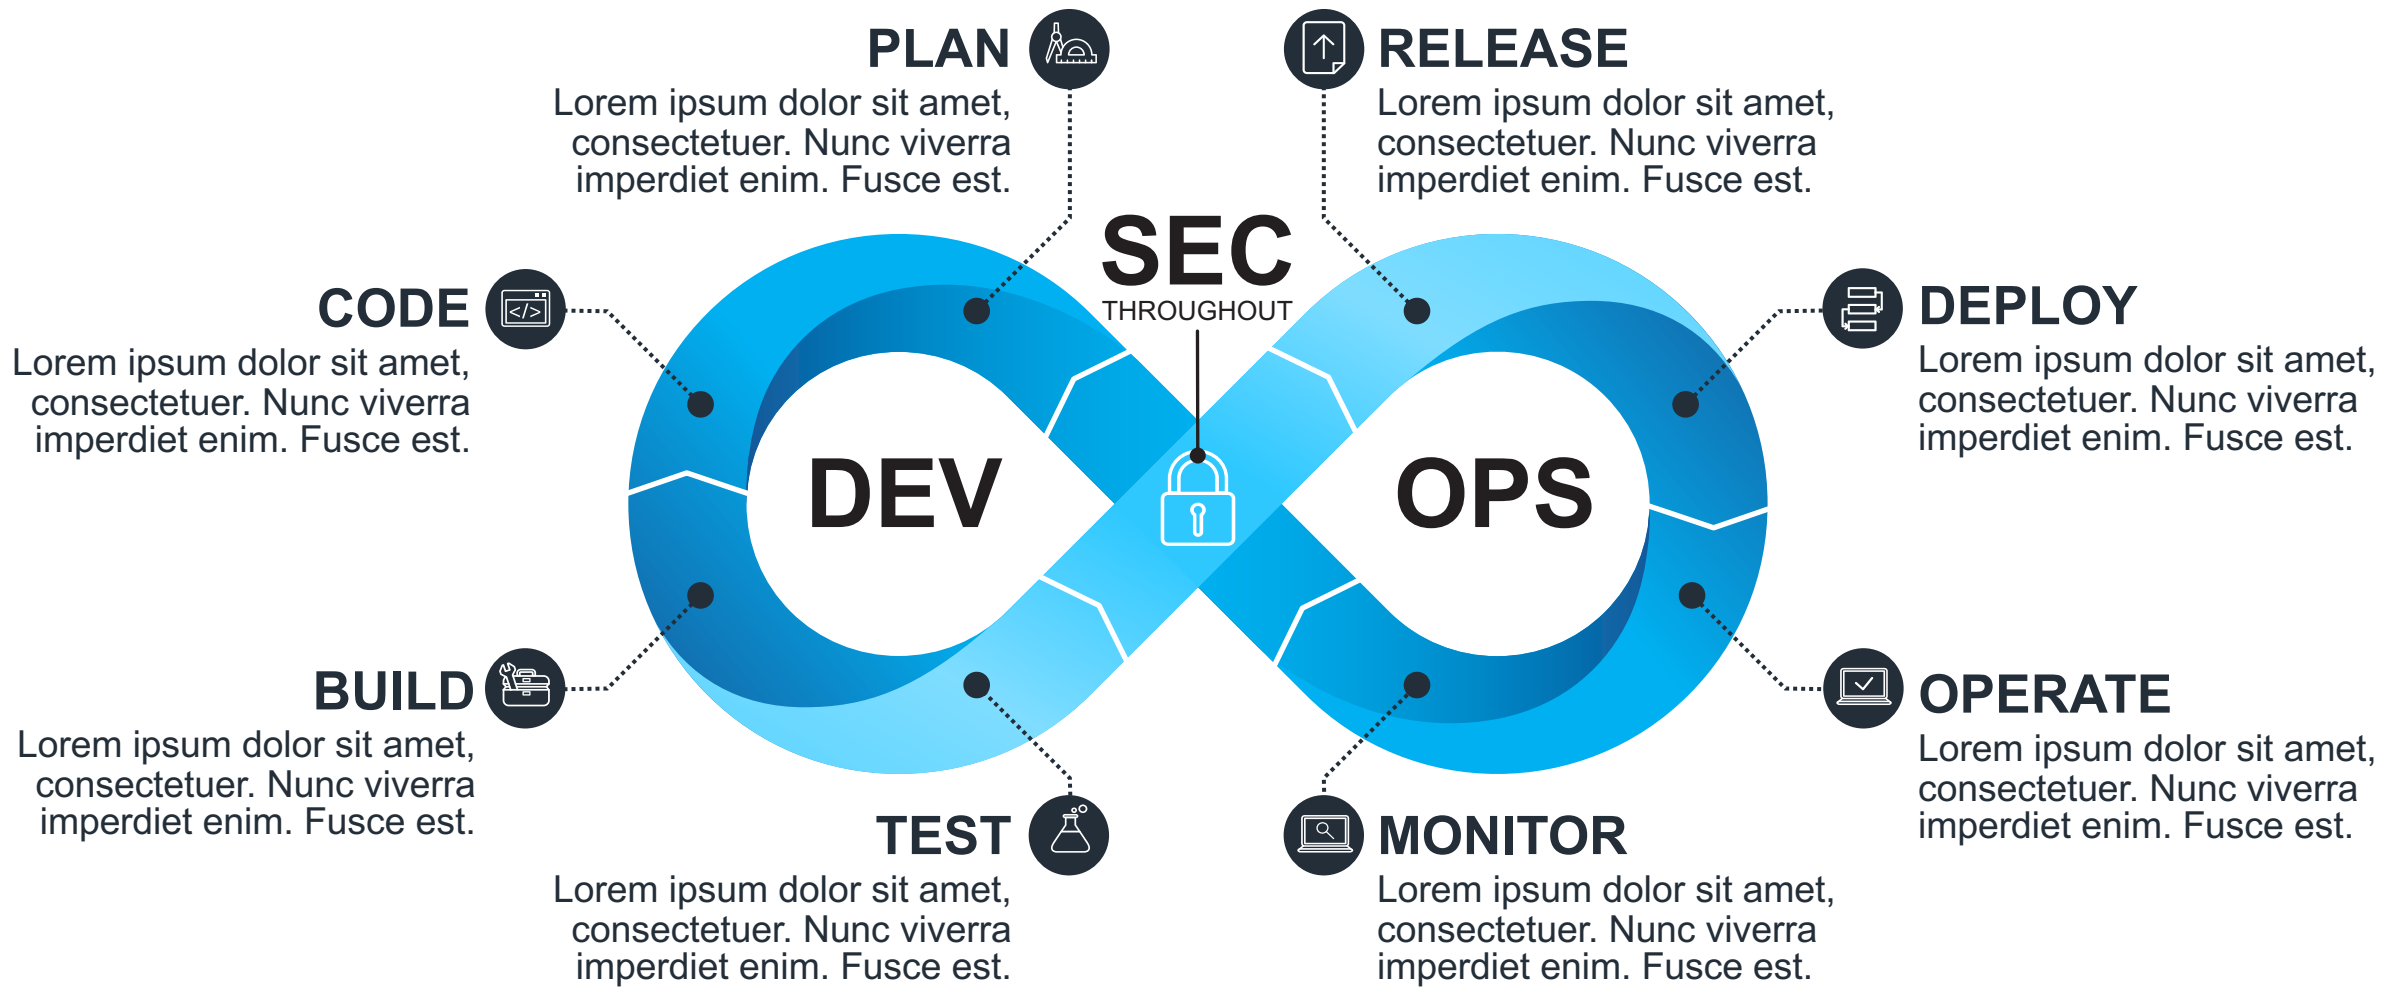

HARVEST. Successfully convert the prospect into a paying customer.

The process above is supported by your Targeted Marketing Team (getting more involved at Root), the Bid and Proposal department (getting more involved at the Grow stage), and your Solution Architects (most involved starting at Progress).
